## Career Objective

Enthusiastic and detail-oriented **MERN Stack Developer** with a strong foundation in **MongoDB, Express.js, React.js, and Node.js**. Passionate about developing dynamic and user-friendly web applications. Proficient in front-end and back-end technologies, with hands-on experience in building full-stack projects. Eager to learn and apply best coding practices while collaborating effectively in a team environment. Seeking an opportunity to contribute technical skills and problem-solving abilities to real-world applications.

---

## Technical Skills

### Programming Languages:

- JavaScript, HTML, CSS, C++

### Front-End Development:

- React.js, Redux, Tailwind CSS, Bootstrap

### Back-End Development:

- Node.js, Express.js,
- RESTful APIs,

### Databases:

- MongoDB, MySQL

### Version Control & Tools:

- Git, GitHub, GitLab, Postman, Docker

### Key Concepts:

- **OOP, Multithreading, Exception Handling, Design Patterns, Collection Framework**
- 

## Certifications

- **Full Stack Web Development Certificate- Skillected.**
- 

## Professional Training

### Full Stack Web Development

*Intern Edunet Foundation in*

*collaboration with EY GDS &*

*AICTEs 6 week (March 2025-2025)*

- Engaged in hands-on Full Stack Development training with industry experts.
- Developed and deployed a project independently under the mentorship of professionals.

### Full Stack Web Development Intern

Edu-versity (July 2024 – August 2024)

- Completed an advanced internship focused on modern web development using the MERN stack.
  - Gained practical experience in designing and deploying scalable, user-friendly web applications.
  - Built and debugged modular projects, improving performance by integrating industry best practices.
- 

## Education

### Bachelor of Technology

*December 2021 – June 2025*

**(B.Tech)** Electronics &

Telecommunication

Government Collage Of

Engineering ,Yavatamal

## Key Projects

### Full-Stack E-Commerce Website

- Tech Stack: React.js, Redux, Node.js, MongoDB
- Developed a full-stack e-commerce platform with user authentication, cart management, and payment integration.
- Engineered a robust CRUD application for seamless user data management.
- Optimized database queries, reducing server response time by 40%.

### Full-Stack Job Portal App

- Tech Stack: React.js, Node.js, Express.js, MongoDB
- Created a job portal allowing users to post, search, and apply for jobs.
- Implemented role-based authentication for job seekers and recruiters
- Integrated resume parsing and job-matching algorithms to enhance user experience.

### Full-Stack LMS (Learning Management System)

- Tech Stack: React.js, Node.js, Express.js, MongoDB
- Developed a comprehensive Learning Management System for online courses and student management.
- Implemented user authentication and role-based access for students, instructors, and admins.
- Integrated video streaming, quiz assessments, and progress tracking features.

---

## Core Competencies

- Strong understanding of React.js and component lifecycle management.
  - Proficient in Node.js backend development and API design.
  - Hands-on experience with MongoDB, MySQL.
  - Expertise in RESTful API development and authentication.
  - Ability to write clean, maintainable, and efficient code.
  - Excellent problem-solving and debugging skills.
-
